

ISITW 2010 Applicant Selection Announcement

Thank you for your interest in ISITW. This year, 25 selected applicants from 5 countries will be provided with travel grant and local living reimbursement by the National Science Council of Taiwan to attend the 2010 International Scientific Instrument Technology Workshop in Taiwan.

The review committee made this decision based on the applicants' field of interest, professional experience, technical service, etc. The balance of gender, region, and degree were also taken into consideration.

Due to the limited amount of reimbursement, only 25 applicants can be selected. For those who missed this opportunity this time, we strongly encourage you to submit your application again next year.

For the selected applicants listed below, we will issue an invitation letter to you soon. In order to comply with the reimbursement regulations, we will send you some papers to be filled very soon.

Shu Wen Li
